**Subject:** Re: EPA Mess

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response>  
Regular updates will be posted as they are available.

Are you still looking for a republican to blame for you screw-up? The Bush's are still alive you know. They are your usual scapegoat. Where are all the "greenies" anyway. Good thing it wasn't an oil spill or they would be protesting and burning down buildings. The EPA also has major air pollution over Martha's Vineyard as well. Suggest McGrath go back to making solar panels. No wonder Obummer sends him Muslim Cards (Obummer doesn't believe in Christmas because he always gets coal in his stockings).
